Consultancy

Non-traditional, Multifunctional, Esthetic, Tailor-made labs

By Dikla Levi | 2023

About Us

At DLVS, we specialize in providing a one-of-a-kind boutique service tailored to our client's specific needs. Led by Dikla Levi, for over two decades our team has honed their craft in creating exceptional and safe workplaces that not only meet functional needs but also enhance employee productivity, engagement, and overall well-being.

We understand that every client has unique requirements and that's why we focus on finding agile and modular methodologies that will best serve your organization for many years to come.

We have had the privilege of working with some of the world's leading companies such as NVIDIA, Motorola, Amazon, Edwards and many more.

The Challenge

Designing A Lab Is A Complex Process As It Involves Navigating A Plethora Of Unknown Variables

- Consolidating the diverse demands of various stakeholders into a cohesive plan
- Accurately defining structural and operational requirements
- Anticipating and incorporating future needs into the design
- Overlooking aesthetics during the planning process

The Solution

Modular, Cost Effective Lab Solutions That Suit Our Client's Current Unique Requirements As Well As Their Future Vision

By designing cutting-edge spaces that prioritize safety and functionality, we have been able to improve employee productivity, engagement, and overall well-being creating environments that support innovation and progress.

Together We Can
Plan And Design

MODULAR — INNOVATIVE — ESTHETIC
MULTIFUNCTIONAL — CONVENIENT

Data Centers | Labs & cleanrooms | Audio & Visual Systems
Passive & active infrastructures | Security Systems
