Dermalosophy brings the latest developments to the world of professional cosmeceuticals. Our formulas developed in Switzerland using the latest and advances in science, chemistry and skin research.

Our Goal:

“Provide the best and fastest results for the customer”

Our cosmetic products are proven to be powerful and safe to use. since established, Dermalosophy has built a strong reputation of success bringing professional solutions to the skincare market including products for treating:

wrinkles/anti-ageing
acne inflammation
hyper-pigmentation
skin whitening
comedogenic skin
rosacea
seborrhea
and more.

Advanced and innovative cosmetics

Exclusive ingredients at Dermalosophy

Many of the ingredients of the Dermalosophy are exclusively

RETINYL TALLATE - A new and stronger derivative of 'Retin A' which gives more noticeable and faster results

An innovative way to treat skin spots - Melanin removal by fermentation and oxidation, without peeling (method developed by Dermalosophy)

Precise skin penetrators - leading the active ingredients to the necessary skin layers during the treatment

Dermalosophy products give a distinct advantage in results, compared to other products!

Easy to sell

ADVANCED COSMETICS

Acne

dermalosophy™
ADVANCED COSMETICS

ACNE Team

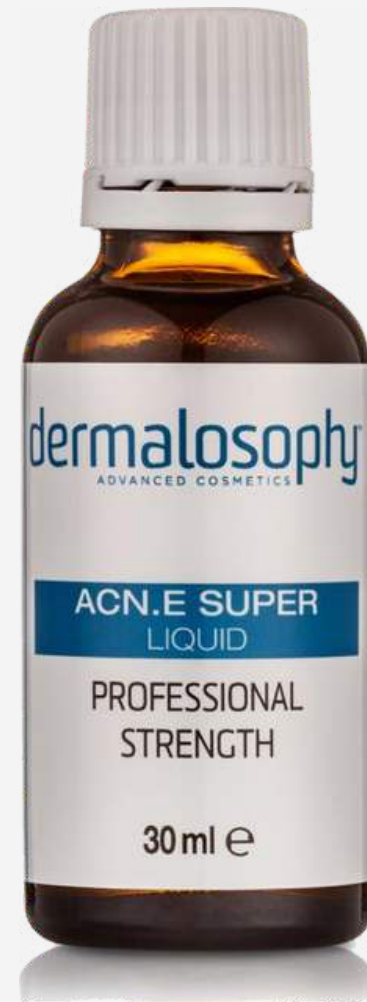

Foam adapted to problematic skin, thoroughly cleans the skin without harming its natural moisture! It is important to use before the active products, since it allows the skin to receive the active ingredients into its deep layers.
SLS FREE.

Treats inflamed to very inflamed acne. A strong anti-bacterial product, kills the acne bacteria on contact, provides fast and guaranteed results in a short period of time

ACNE Team

Intended for the treatment of nodules above and below the skin, cysts and dries inflammatory acne wounds

Intended for use on oily skin
Cleanses the skin of excessive oils, disinfects and dries pimples

Whitening / Pigmentation

Pigmentation Team

B-WHITE CLEANSER FOAM - Especially suitable for uneven skin tone.

Ideally cleanses the skin surface without disturbing the natural moisture of the derma. Recommended of using before the active products, as it cleanses and balances the sebum levels in the skin and allows to the active ingredients for deep and easy penetration into the skin layers.

- SLS FREE -

B-WHITE GEL

A special, concentrated brightening gel. Product with double action: brightens the skin and also gently removes the top layer of dead skin. The skin gets a renewed look, healthier and a uniform ton. Suitable for people with dark skin

Pigmentation Team

CLEAR SOFT SPF 50 M-PREVENT

A modern, velvety texture sunscreen that protects the skin from: UVA and UVB rays. Protects against the formation of free radicals that damage skin cells and skin elasticity.

It contains **3 different melanin suppressants** that can prevent sun spots and provide maximum protection inside and outside the skin. The product is suitable for all types of skin and is adapted to the Israeli climate (variable), which is characterized by high humidity, which gives the user a pleasant and soft feeling for all day long!

B-WHITE CREAM

The triple benefit: brightening and destroying existing blemishes, immediately reducing the production of melanin (skin pigment), preventing blemishes. Thanks to the use of strong and concentrated brightening materials, as well as the use of modern penetrants, this cream gives excellent results for skin with uneven tone and blemishes.

Additional skin problems

BIO ULTRA - CALM CREAM

Instant and powerful moisturizing lathering cream and treats redness and irritation of the skin caused by procedures from the clinic, burns from the sun, waxing and shaving treatments.

Main ingredients: Licorice plant extract - Dipotassium Glycyrrhizate in combination with Zinc Glycyrrhizate. (Ingredients with anti-inflammatory properties) In combination with other ingredients, the cream will treat the tingling and irritating sensation of the skin.

SEBO CREAM

The fastest therapeutic cream in the company! Removes seborrhea within two / three days. The cream treats dry or oily seborrhea, skin fungus, eczema and atopic dermatitis.

ROSA GEL

Rosacea is common, especially in people with fair skin, and usually appears after age 30. It refers to a wide range of symptoms, usually beginning gradually with redness and blushing of the forehead, cheeks, nose, and chin. Over time, symptoms may worsen and small blood vessels develop, especially in the nose, which will dilate and become more visible. In addition, small pimples similar to acne may develop, this stage is called ACNE ROSACEA

Rosacea is not contagious, but without treatment it can get worse over time. This is a chronic problem that can show up from time to time.
