## Precision Hiring Meets Revenue Expansion

WorksForMe's plug-and-play matching module integrates seamlessly into your job board, enhancing it with intelligent hiring functionality that:

- **Delivers instant, high-quality matches** from your existing candidate pool
- **Cuts recruiter screening time by over 50%** by automating manual screening
- **Keeps employers and candidates coming back** with a smooth, premium experience

Upgrade Your Job Board with Intelligent Candidate Matching

Candidates

Automatically matched from your existing talent pool

Your Job Board

Powered by WorksForMe's real-time matching engine

Employers

Receive high-quality matches instantly

End-to-end talent sourcing and matching platform processing and recalculating hundreds of parameters in real time

Monetize Time Saved

Deliver precise matches that slash recruiter hours. Charge employers for time saved — increase retention and grow your revenue.

Engage Candidates Like Never Before

Deliver tailored jobs they didn't know to search for — driving repeat visits and growing traffic.

Ready for Public Sector Impact?

Instantly match unemployed job seekers to open roles. Connect candidates smartly to the right courses.

Why WorksForMe?

✓ **Intelligent matching beyond keyword searches**

✓ **Works with any ATS or as a standalone solution**

✓ **Drives higher ROI for employers and revenue for job boards**

✓ **Opens doors for public-private workforce partnerships**
