

FROM CONNECTION TO PROTECTION: PAYG TRAVEL INSURANCE FOR THE DIGITAL TELCO ERA

AUTOMATIC, LOCATION-BASED PROTECTION
THAT ACTIVATES WITH TRAVEL

A new kind of value-added service:
live, proven, and deployable in weeks

FROM CONCEPT TO MARKET IN WEEKS

Differentiated Products:

Purpose-built for digital distribution — perfectly suited for connectivity and lifestyle channels.

Accelerated Go-To-Market:

Launch new value-added services in weeks, not months

Advanced Usage Models:

Supports dynamic models (PAYG, PHYG, UBI) — ideal for on-demand travel or usage-based services.

Cloud-native, Secure Platform:

Modern, scalable architecture that meets enterprise-grade security and compliance standards.

Seamless Integration:

API-ready and designed to connect effortlessly with telco, eSIM, and partner systems.

THE PLATFORM CONNECTING TELCOS, PARTNERS & INSURERS

ECOSYSTEM OF INSURERS & PARTNERS

Instant access to insurers and partners — ready for plug-and-play collaboration.

REAL-TIME EXPERIENCE

Instant activation and deactivation — coverage that follows the user, not the plan.

GLOBAL APIS FOR TELCOS & ESIMS

Easily embed travel insurance into roaming or eSIM journeys

FLEXIBLE COMMERCIAL MODELS

Supports PAYG and usage-based insurance — unlock new revenue without disrupting operations.

CLOUD NATIVE SCALABLE CORE

Low-code, modular, and API-ready — fast integration, global scalability

TELCO ADVANTAGE

New Revenue Stream: Monetize roaming & eSIM journeys through travel protection add-ons.

Fast Go-To-Market: Launch in weeks — no new infrastructure needed.

Enhanced Customer Loyalty: Boost engagement and retention with relevant, value-added service.

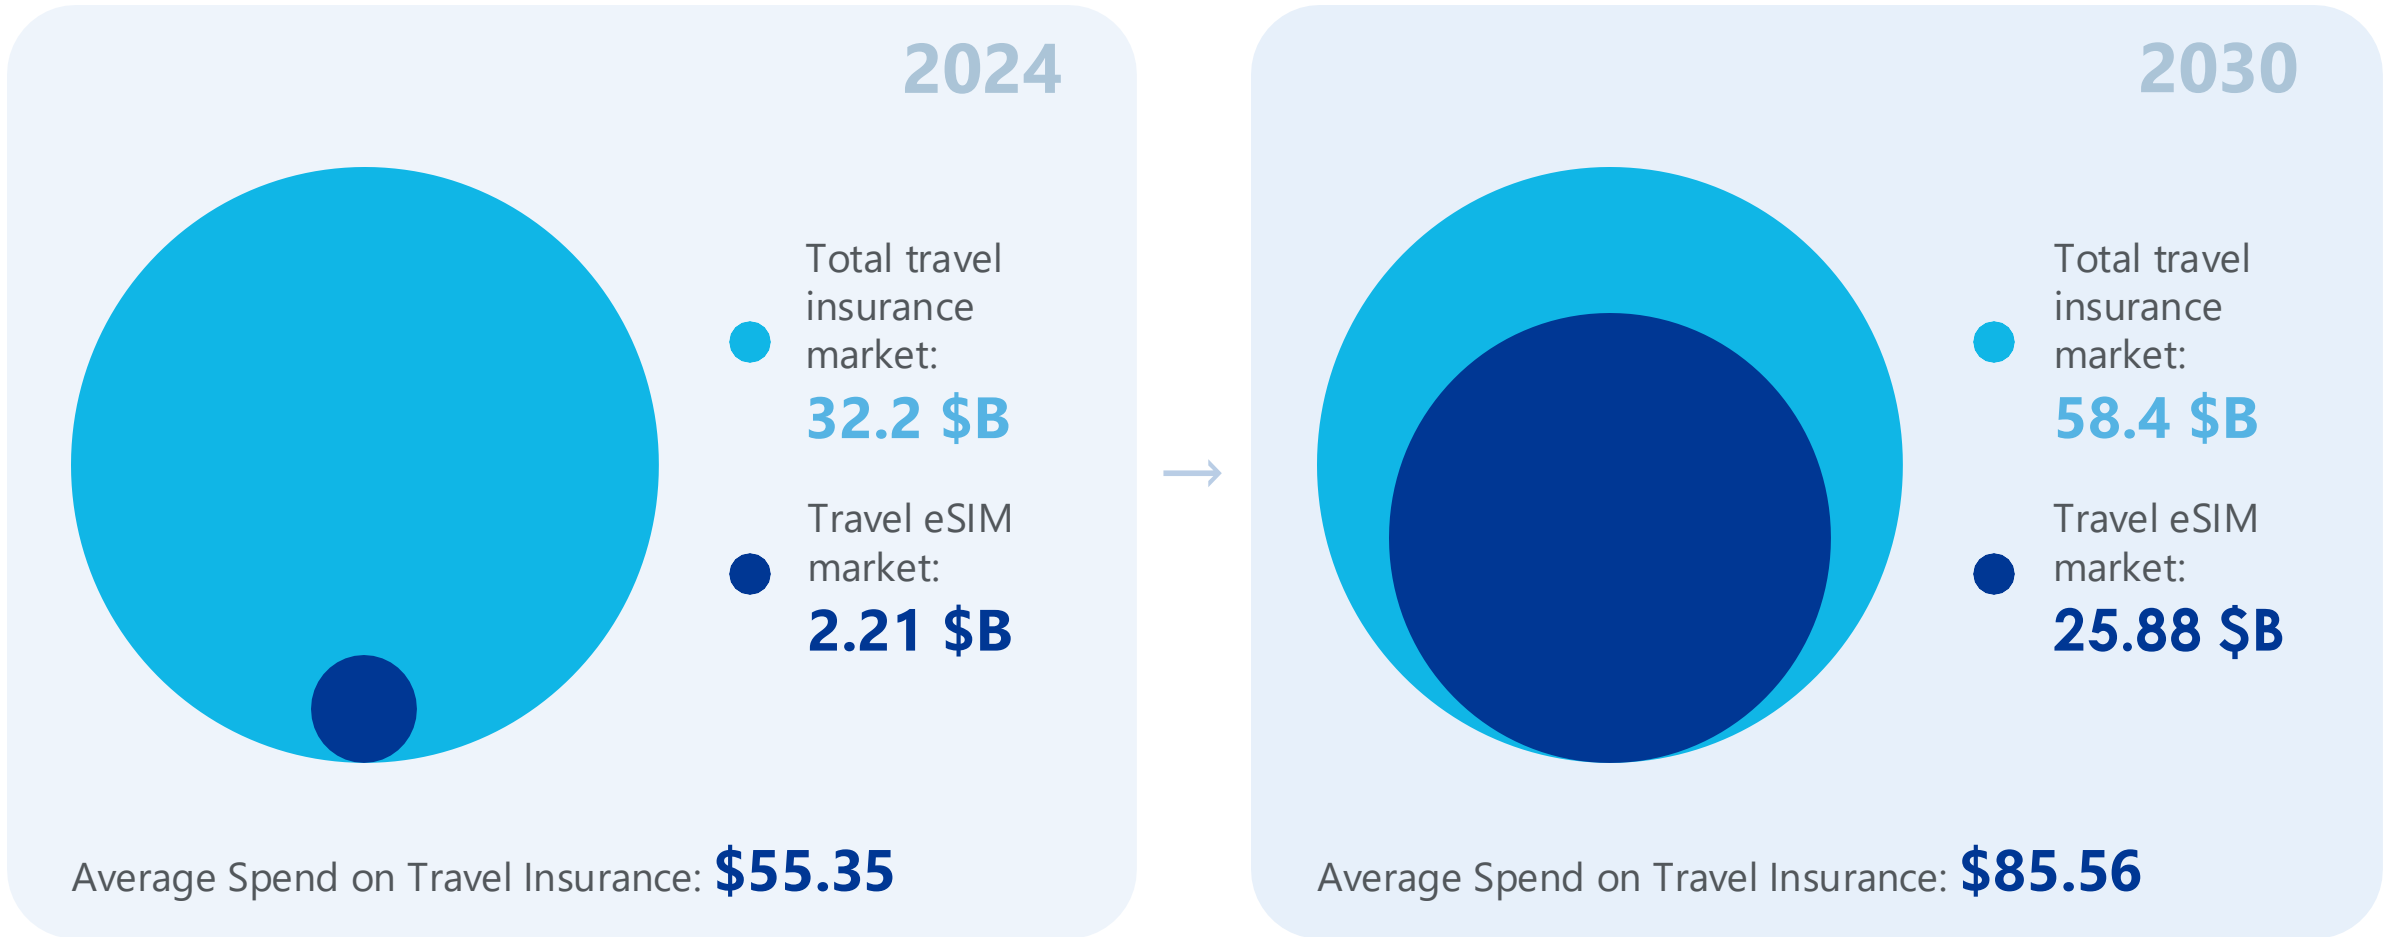

Differentiated Brand Experience: Deliver value beyond connectivity.

Effortless & Insight-Driven Operation: Runs automatically while providing travel insights to refine offers.

SEE HOW SEAMLESS EMBEDDED PROTECTION WORKS - DEMO

THE MARKET FOR TRAVEL eSIM + INSURANCE IS EXPLODING

Where connectivity meets protection — and new revenue.

IMPACT OF EMBEDDED TRAVEL INSURANCE FOR DIGITAL TELCOS

Driving Adoption, Loyalty & Operational Efficiency

Continuous Usage & Revenue:

PAYG plans tied to roaming keep engagement alive year-round — turning travel into recurring revenue.

Customer & Partner Loyalty:

Travel protection enhances satisfaction and repeat business — keeping users connected and protected.

Higher Adoption & Conversions:

Bundling eSIM with insurance drives 30%+ conversion vs. 3–5 % for traditional offers. Simple, automated onboarding within digital journeys boosts uptake.

Operational Efficiency:

Automated activation and servicing reduce manual work and support load. 95 % automation = lower costs + faster response.
