

01 Shop Roasters

Solar Eco

2 kg

Automatic & intuitive,
start roasting coffee with
the push of a button

[Read more](#)

FZ94 Evo

100 gr-2.4 kg

Flexible & controlled,
explore the full range of
coffee roasting possibilities

[Read more](#)

Silon ZR7

7 kg

Fast & precise,
master the art of coffee
roasting with unlimited control

[Read more](#)

Stingray E7

7 kg

Advanced & Electric,
roast with great confidence
using electric heat innovation

[Read more](#)

02 Commercial Roasters

Ghibli R15

15 kg

Professional & robust,
step into the world of commercial
coffee with confidence

[Read more](#)

Ghibli Firewood

15 kg

Unique & artisanal,
infuse your coffee with
special flavors and aromas

[Read more](#)

Ghibli R30

30 kg

Powerful & efficient,
maximize performance and
minimize energy consumption

[Read more](#)

Ghibli R90

90 kg

Functional & reliable,
produce high-quality coffee while
roasting in large volumes

SOLAR ECO

Automatic & Intuitive

Features

Fully electric

Low emission, clean energy, and maximized efficiency.

Automatic

One push-button operation for autonomous roasting.

Customize

Create and save custom designed roast profiles.

Lasting quality

Durable design made from high-quality materials.

Advanced software

Easy to operate and allows profile customization.

4-in-1 heating

Conduction, convection, infrared, and thermosiphon technology.

■ The Solar Eco is an automatic shop roaster, designed to simplify the roasting process for users of all skill levels. It's fully electric and highly efficient, making it the most environmentally-friendly and cost-effective choice."

Ram Evgi, founder and CEO

Start roasting coffee at the
push of a button

FZ94 EVO

Flexible & Controlled

Features

Fully electric

Low emission, clean energy, and maximized efficiency.

Precise control

Drum and blower speed modulation for complete accuracy.

Advanced heating

Precise electric heating adjustment, from 0-100%.

Autopilot mode

Automatically repeat custom designed roast profiles.

Compatible

Seamless data logging into all of the popular apps.

Infrared drum

Electromagnetic waves roast the coffee quickly and evenly.

■ The FZ94 Evo elevates your game as a skilled roast master, giving you complete control and flexibility over the entire roasting process. It is perfect for discovering every roasting possibility with great accuracy."

Ram Evgi, founder and CEO

Explore the full range
of coffee roasting possibilities

SILON ZR7

Fast & Precise

Features

Vortex TO4 drum

Increased efficiency and perfect aroma enhancement.

Ceramic chamber

Smart thermal design for uniformly roasted batches.

Pre-mix gas burner

Significant gas savings and low NOx, and CO emissions.

Complete control

Fully modulated burner, drum speed, and airflow control.

Geometric drum

Perfect bean stirring and quick evacuation.

Turbo cooling

Less than three minutes for a full 7kg batch.

■ The Silon ZR7 is the fastest, most powerful roaster with unlimited roasting capabilities and exceptional coffee results. It delivers conductive heat closer to the beans than ever dared before, giving you, the artisan, complete control."

Ram Evgi, founder and CEO

Explore the full range of coffee
roasting possibilities

Stingray E7

Advanced & Electric

Features

ElectroFlame technology

Precise and innovative electric coffee roasting method.

Maximized efficiency

Incredibly low consumption compared to similar products.

Ceramic chamber

Smart thermal design for uniformly roasted batches.

Ambient autonomy

Optimal roasting conditions regardless of surroundings.

Complete control

Fully modulated burner, drum speed, and airflow control.

Operator safety

Best user protection and safe roasting environment.

■ The Stingray is a precision - engineered electric coffee roaster. Featuring our exclusive ElectroFlame technology and smart Heat Management Software, it combines a powerful electric burner with a ceramic drum housing for an unmatched roasting experience and cup profile."

Ram Evgi, founder and CEO

Roast exceptional coffee with
a fully electric solution

GHIBLI R15

Professional & Robust

Features

Vortex TO4 drum

Increased efficiency and perfect aroma enhancement.

Ceramic chamber

Smart thermal design for uniformly roasted batches.

Ambient autonomy

Optimal roasting conditions regardless of surroundings.

Complete control

Fully modulated burner, drum speed, and airflow control.

Efficient technology

Reduced gas consumption through innovative features.

Operator safety

Best user protection and safe roasting environment.

■ The Ghibli R15 carries our iconic Coffee-Tech Engineering DNA in every feature and aspect, ensuring a flawless design and supreme quality. It is built to the highest standards, made to last, and delivers outstanding results time after time."

Ram Evgi, founder and CEO

Step into the commercial
coffee world with confidence

GHIBLI Firewood

Unique & Artisanal

Features

Wood roasting

Fully wood-energy based, no gas connection.

Revolutionary combustion

Efficiently utilizes wood energy and reduces emission notably.

Complete control

Fully modulated heating, drum speed, and airflow control.

Ceramic chamber

Smart thermal design for uniformly roasted batches.

Perfect heat dispersion

Uniform roasting with single origin and pre blended beans.

Operator safety

Best user protection and safest roasting environment.

■ The Ghibli Firewood is where innovation and tradition meet. Using wood as a natural energy source adds a new dimension to your coffee, enriching it with deep flavors and beautiful aroma."

Ram Evgi, founder and CEO

Infuse your coffee with special flavors and aromas

GHIBLI R30

Powerful & Efficient

Features

Vortex TO4 drum

Increased efficiency and perfect aroma enhancement.

Ceramic chamber

Smart thermal design for uniformly roasted batches.

Ambient autonomy

Optimal roasting conditions regardless of surroundings.

Comfort design

Smart thermal sensors and noise-reduction features.

Efficient technology

Reduced gas consumption through innovative features.

Operator safety

Best user protection and safest roasting environment.

■ The Ghibli R30 maximizes performance and efficiency using next-generation energy solutions. Our innovative technology ensures that the beans preserve and improve their natural aromas and flavors through advanced thermodynamics."

Ram Evgi, founder and CEO

Maximize performance and minimize energy consumption

GHIBLI R90

Functional & Reliable

Features

Vortex TO4 drum

Increased efficiency and perfect aroma enhancement.

Ambient autonomy

Optimal roasting conditions regardless of surroundings.

Advanced software

Simplified operation and precise control of every step and feature.

VoluMax cooling

Only 3-5 minutes cooling for a full 90kg batch.

Pre-mix gas burner

Significant gas savings and low NOx, and CO emissions.

Operator safety

Best user protection and safest roasting environment.

■ The Ghibli R90 produces coffee with a premium taste, aroma, and extractable properties. Through advanced thermodynamics and Vortex technology, we achieved a highly efficient roaster with minimized emissions and significant gas savings."

Ram Evgi, founder and CEO

Produce high-quality coffee while roasting in large volumes
