

# Mission-Grade Remote Protection.

## Built by an Elite Special-Unit Commander

### Who we are

Moshav transforms cameras and sensors into real-time prevention. Founded by the former chief commander of an elite special security unit, we apply mission discipline, rapid decision-making, and zero-fail standards combining advanced technology with 24/7 human-verified monitoring so threats are deterred before damage occurs.

### What we deliver

#### 24/7 Live Monitoring

Perimeters, yards, lobbies, garages, compounds, warehouses watched in real time.

#### Remote Access Control

Open/close gates and doors, verify visitors and plates, stop tailgating.

#### Live Deterrence

Voice-down over speakers, strobes/sirens; immediate escalation to site contacts and police.

#### Multi-Sensor Fusion

Heat/smoke, door/tamper, vibration, panic, LPR one pane of glass.

#### In-Transit Oversight

Convoy/truck cameras, GPS geofences, route-deviation and door-open alerts.

### Why Moshav

- **Elite leadership:** Special-operations pedigree at the helm; discretion, rigor, and SOPs that work under pressure.
- **Human judgment + AI:** Advanced analytics to detect, trained operators
- **PSI™ Protocol:** Anticipate · Detect · Decide · Deter
- **Privacy & Compliance:** GDPR-aligned practices, role-based access, auditable logs.
- **Resilience:** Redundant 24/7 SOC, multilingual operators, procedures for continuity.
