

RIDEVISION

Real Time 360° Protection
For Any Motorbike

**Ride Vision Keeps Riders Aware Of Potential
Road Threats In Real Time For A Safer Ride.**

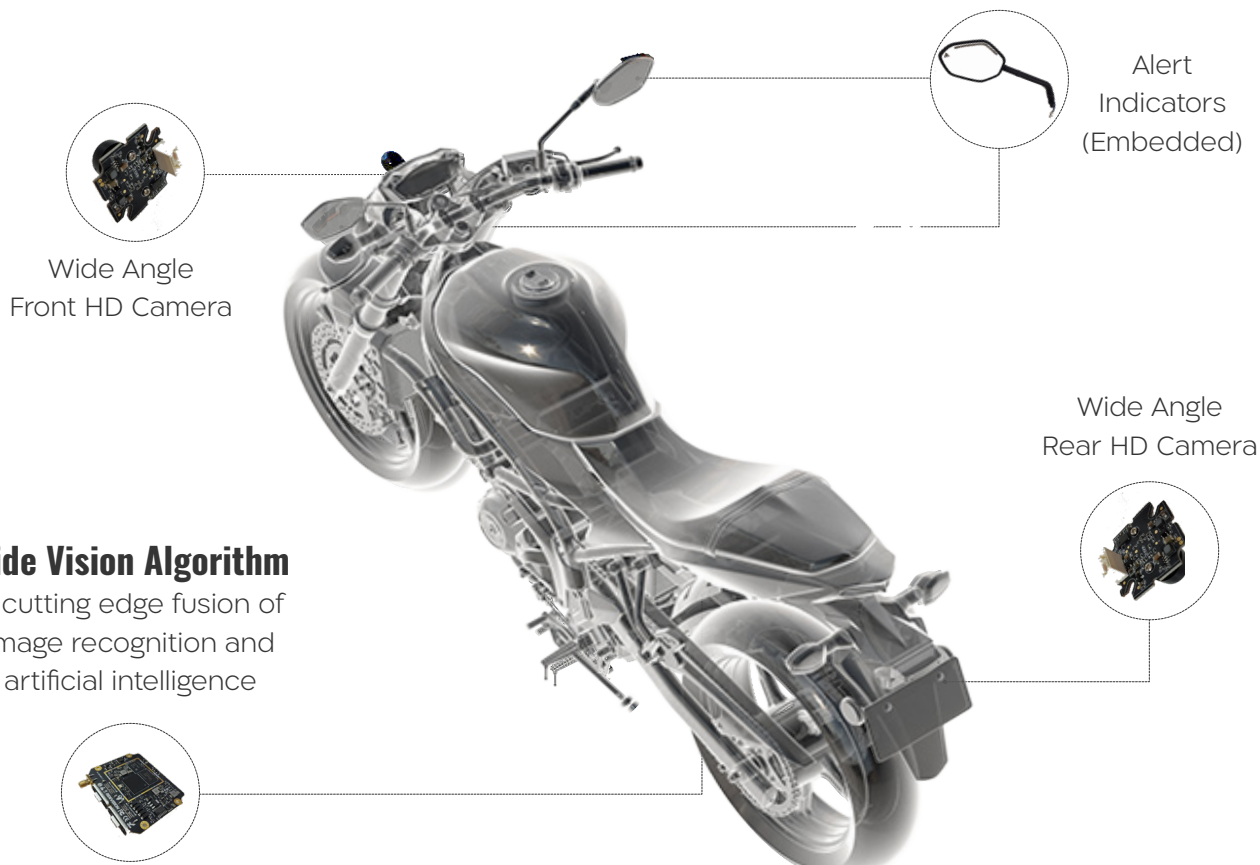

ADAS specifically built for
motorcycles

Multiple features on
same hardware

Over The Air updates

Increase rider safety with innovative technology

Riders can react in real-time to critical threats and avoid accidents and injury while on the road. Ride Vision's unique HMI is simple and intuitive, alerts in real time and keeps riders' focus on the road ahead.

MULTIPLE SAFETY ALERTS

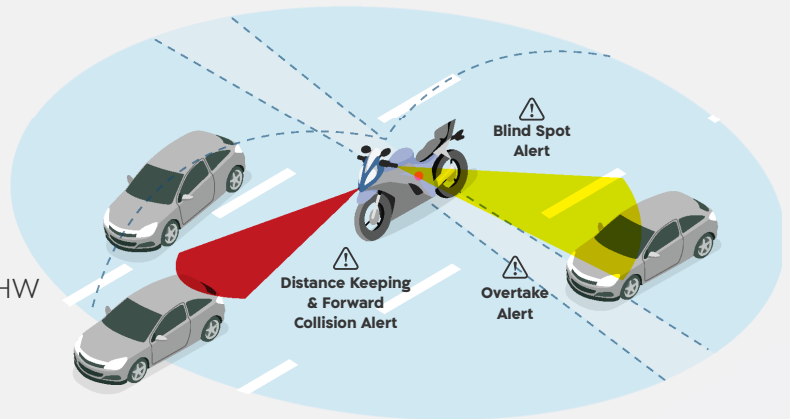

- FCW, DKW, BSW, DOW and more
- HMI alerts in rider's field of view
- Customizable software

OVER THE AIR UPDATES

- Provide new alerts and features on same HW
- Safety & experience features (E-Call, etc.)
- New business models

ADAPTABLE FOR ANY MODEL

- Fits any model by simple software configuration
- Integration via Ride Vision or a leading Tier 1 partner

Turn Any Motorbike into a Superbike with Predictive Vision™ Collision Aversion Technology™
