ISRAEL EXPORT INSTITUTE

Inspired by Innovation, Connected and Coordinated…

The Israel Export and International Cooperation Institute, supported by member firms, private sector bodies and the government of Israel, advances business relationships between Israeli exporters and overseas businesses and organizations. By providing a wide range of export-oriented services to Israeli companies and complementary services to the international business community, the Institute helps build successful joint ventures, strategic alliances and trade partnerships.

The Foreign Trade Administration (FTA) in the Ministry of Economy and Industry operates 45 Economic and Trade missions is financial capitals around the world. The commercial attachés and their team of trade officers provide business services for Israeli and foreign companies alike. From scouting for potential partners and connecting companies to relevant partners and business communities, and up to arranging and organizing customized agenda and meetings for inbound and outbound delegations.

Agent Video Intelligence Ltd.

Categories

Video Analytics Solutions

Video Search

Company Profile

Agent Vi's video analytics solutions help keep airports fully operational, secure and safe. Agent Vi's real-time event detection capabilities alert to various security breaches (unauthorized people / vehicles, suspicious objects, perimeter breaches and more), allowing potentially dangerous situations to be handled effectively in real-time. Agent Vi's automated video search and analysis capabilities offer effortless and rapid pinpointing of specific footage, replacing labor-intensive, manual searches through recorded video, and enabling swift, efficient resolution of time-sensitive forensic investigations

Solution at a Glance

Agent Video Intelligence (Agent Vi™) is the leading global provider of open architecture, video analytics solutions, offering software products for on-premise installations as well as cloud-based SaaS. Capabilities range from real-time video analysis and alerts to video search and business intelligence.

Land Defense Systems

Land Navigation Systems

Company Profile

Since the company's formation over five decades ago, ELTA Systems Ltd. (ELTA) has established its leading position in the local and global markets as a systems house developing state-of-the-art solutions for Defense, Paramilitary, Government and Law Enforcement customers as well as for the civilian market.

ELTA develops, manufactures, integrates and supplies a wide-range of products used to assist our customers in a vast assortment of missions: Situational Awareness Picture (SAP) solutions, Intelligence, Surveillance, Target Acquisition and Reconnaissance (ISTAR), Early Warning and Control, Electronic Warfare Systems, Homeland Security (HLS), Force Protection, Self-Defense, Fire Control applications, Multi-mission vehicles and boats, mine sweepers , aerial and land-based robotics, C4I and Cyber Solutions. ELTA's comprehensive solutions are primarily based on in-house developed advanced electromagnetic sensors (e.g. AESA RADAR, COMINT, ELINT) with related SIGINT, IMINT and GEOINT exploitation capabilities, Gallium Nitride (GaN) material, Artificial Intelligence and Deep Learning technologies.

Solution at a Glance

ELTA's solutions are tailored specifically to customers' requirements for the purpose of protecting one's sovereign and/or entity. The solutions can be deployed under or above ground and water, through cyberspace, in the sky, and in space.

ELTA's proven advanced products and solutions are driven by our experience in analyzing complex operational problems and implementing integrated, multidisciplinary solutions. Furthermore, ELTA's close relationship with the Israel Defense Forces (IDF) provides the company with real-time operational feedback and combat experiences, thereby enabling ELTA to extract crucial data from the feedback and integrate it into all our products. The end result is the successful deployment of our solutions across the globe combined with a high level of customer satisfaction.
