

THE TRULY SUGAR-FREE GUMMICEUTICALS™

TopGum has produced the first Truly, Sugar Free* range of premium Gummiceuticals that offer expanding opportunities for tailor-made formulas, featuring a generic delivery system with a potent dosage technique to effectively deliver a variety of high-quality nutraceuticals.

THE FAST-GROWING DEMAND FOR A BETTER GUMMY

More than ever, consumers are seeking ease of use and product variety, a behavioral shift mirrored in market trends that forecast double-digit growth rates for gummy vitamins through 2030 with *yet untapped markets*. Edibles are emerging as one of the strongest products in the global nutraceutical industry; we have matched our forward-thinking expansion strategy with this growing demand to launch TopGum as a nutraceutical powerhouse.

THE GUMMICEUTICAL DELIVERY SYSTEM

TopGum's pioneering R&D team has developed a patent-pending, plant-based gel solution with unique matrix compositions and a sugar-free formulation to create Gummiceuticals. This readily available, generic delivery system is highly effective in the release of active molecules and supports the optimal delivery of nutraceuticals – scientifically proven to surpass the performance of liquid, capsule, tablet and powder-based systems. The winning formula features an unmatched organoleptic balance that renders TopGum's truly, sugar-free Gummiceuticals unlike any other.

HIGHLIGHTS

Patent-Pending Gummiceuticals

Proprietary truly sugar-free solution enables effective release of active ingredients and optimal delivery

Highly-Scalable, Sugar-Free Platform

Plant-based, generic delivery system with proven capacity for wide range of tailored formulas

Organoleptic Balance

Distinct combination of flavor, color, and texture

Premium Custom Formulation

R&D solutions of high-concentrate formulas & homogeneous dosage with optimal time to market
