Nisnas Industries Homeware, Barware and Leather Gear

From the desk of Yossi Levin, co-founder, [Nisnas Industries](#), design born in Haifa, Israel. Since 2010

Nisnas Industries has become recognized globally for excellence in homeware, barware and leather gear. Alongside Nisnas IND's polymer planter, [Plant1Up](#), which changed the home gardening experience in 2020, NI focuses on natural materials such as Oak and Italian leather for its barware and bags.

Nisnas Industries is at once a source for customers in search for a better living space and the human experience within it. Our products speak a language of the home and the experience that inhabits it.

We make exquisite barware and leather gear that has garnered a global, passionate fan base by standing out in quality and appearance.

Our [tumblers and flasks](#) have been voted best gear by GQ, Outside Magazine and Uncrate, they fit well and stand out in any design and home decor store where they create a passionate and loyal, returning customer base..

Nisnas IND's Oak Honey Whisky tumblers currently sell all over the United States with our wonderful partners [Uncommongoods](#) with over 10k units sold annually.

We always thrive to innovate and introduce 2-3 products per year. This year NI has introduced a music box called the [Resounding](#). A redesigned centerpiece that allows the user to write his own music in a stunning out-of-the-box design theme.

I would like to send over a few samples for you to enjoy and review, I will include our planter, the Plant1Up, Oak tumblers, Kole flasks and leather bags for your review. I'll be happy to answer any questions you might have on this.

Please feel free to contact me at the email below for a complimentary sample to be sent to you, I will gladly assist with any question or concern in this regard.

Best wishes,

Yossi Levin
