

Air pollution does not stop at closed doors.

Vootto protects you with Safe Air.

There are **4.2 Million deaths every year** as a result of exposure to outdoor air pollution. Covid-19 and other viruses lead to additional Millions of deaths, and contamination in small spaces.

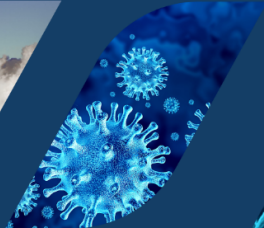

Vootto is the **most powerful Compact Air Purifier** for small spaces that clears the air of:

Smoke and Bad Odors

Pollution & Gases

Viruses & Covid-19

Allergens and Dust

Vootto's patented filtration can truly eliminate these risks, **particularly Covid-19**, in small spaces like:

Truck Fleets

Ambulances

Small Clinics

Taxi Cabs

Stop breathing the city's pollution.
Reclaim your Airspace.

Innovation in Protection

Equipped with the innovative IN-EX technology, **patented technology which was developed for over 14 years at the academy**, Vootto can do what others can't: trap and destroy viruses without releasing harmful byproducts. And the best part? No Installation Required.

Active Shield Air Filter was ISO tested and showed:

99.15% Efficiency
against SARS-COV-2

98.8% Efficiency against
CoronaVirus UK Mutant

Certified
CE FC

Filtered by
IN-EX

Vootto is built to efficiently cope with urban risks in small spaces, and implements the filtration in 4 steps:

Powerful
Suction

Antiviral
Elimination

Innovative
Filtration

Actively
freshens

Start Breathing Better.
