Freshens

Tech That
Protects You.

Vootto raises the bar in air purifier technology and removes 99% of all pollutants from the air in under 10 minutes.

Our unique Active Shield air filter can do what others can't: Trap and destroy bacteria without releasing harmful byproducts like Ozone. This is our killer edge, eliminating the Coronavirus with 99% efficiency.

A woman with blonde hair is sitting in the back seat of a car, working on a laptop. On the center console in front of her is a small, cylindrical device. From the top of this device, a wide, pink, cone-shaped light beam projects upwards and outwards, filling the cabin. Several small, pink, four-petaled flower-like icons are scattered within this cone. The car's interior is visible, including the leather seats, a smartphone on the console, and the rear entertainment screens.
