## Cyber Sector

As a leader in Cyber Security, Israel is back participating in GISEC 2022 exhibition, presenting a full spectrum of advanced solutions tailored for Critical Infrastructure, Healthcare, Financial Institutions, Manufacturers, and IT Enterprises. The Israel Pavilion at GISEC Dubai 2022 will provide a centrally located, high-profile venue for 8 Israeli leading Cyber companies, presenting the cutting edge technology in IT, OT, IoT, and Cyber Training domains. The pavilion is organized by The Israel Export Institute in cooperation with the Foreign Trade Administration at the Ministry of Economy and Industry. The Israel Export Institute, a non-profit organization supported by the government of Israel and the private sector, facilitates business ties, joint ventures, and strategic alliances between international and Israeli companies.

The Institute is committed to bringing together mobile-centric corporations worldwide with Israeli companies whose mobile applications, services, and platforms provide a business advantage in the highly competitive mobile market.

THE ISRAEL EXPORT &  
INTERNATIONAL COOPERATION INSTITUTE

The Israel Export & International Cooperation Institute, a non-profit organization supported by the government of Israel and the private sector, facilitates business ties, joint ventures and strategic alliances between overseas and Israeli companies. Charged with promoting Israel's business community in foreign markets it provides comprehensive, professional trade information, advice, contacts and promotional activities to Israeli companies. Furthermore, the IEICI provides complementary services to business people, commercial groups, and business delegations from across the globe: IEICI uses its unique and one of a kind network with the prosperous startup ecosystem in Israel, and connects the foreign players, according to their field of interest.

Ministry of Economy and Industry  
Foreign Trade Administration

The Foreign Trade Administration (FTA) at the Israeli Ministry of Economy and Industry manages and supports Israel's international trade and trade policy by promoting trade and exports, initiating and maintaining trade agreements, attracting and facilitating foreign investments and creating strategic cooperation with foreign companies. Through our headquarters in Jerusalem together with 45 economic and trade missions in key financial centers throughout the world, the FTA promotes Israel's economy worldwide. Israel's economic and trade missions are at the forefront of the Israeli government's efforts to boost our industries in foreign markets. Our team of highly experienced economic representatives and business consultants provides a wide range of services to Israeli companies and to the international business community. The FTA establishing a new office in Abu Dhabi, which will be responsible for ties between Israel and the United Arab Emirates. The economic and trade mission will oversee the strengthening of commercial and economic links between Israel and the UAE and will work to attract UAE investments in the Israeli economy.

**Aviad Tamir** | Appointed, Head of Economic and Trade Mission to the UAE The Israeli Ministry of Economy & Industry

## Cyber Israel

Prime Minister Office  
National Cyber Directorate

Israel National Cyber Directorate (INCD) in the Prime Minister's Office serves as the Prime Minister's and Government's staff, which devises national cyber defense policy, promotes its implementation and provides recommendation on cyber-related matters. The INCD is responsible to create and improve national cyber security capacities and capabilities in order to overcome challenges emanating from cyberspace. The INCD strives to advance Israel's leading posture as a global powerhouse for cyber security-related research and development, by investing dedicated resources in the Israeli academy, human capital and cyber security industry. The INCD enhances the cooperation and synergy between the private sector, the government and international partners, in order to create a unique and dominant cyber security ecosystem in Israel.

## Cyber security training and assessment

### The World's most advanced cyber security training and assessment platform

Our mission at Cympire is to help you improve your organization's cybersecurity skills and readiness by providing top-notch hands-on training for your IT professionals on Cympire's cyber range platform. Having mission-ready cybersecurity professionals will allow your company to have the resources to counteract tomorrow's cyber threats.

## IoT

### Protected Cellular Connectivity Suite, built for IoT enterprises

FirstPoint provides a comprehensive secured Cellular Connectivity Management Platform (CMP) that protects any cellular-connected devices from mobile network threats, as well as a multi-functional management platform to meet your business goals.

FirstPoint secured CMP provides protection for any mobile and cellular IoT devices, reduces costs, and boosts operational efficiency on scale, while continuously monitoring, analyzing, and managing the connectivity.

## Application and Website Security

### API security for digital transformation

L7 Defense helps organizations to protect their infrastructure, applications, customers, employees, and partners against the growing risk of API-borne attacks. APIs have become critical for data sharing and application integration and are an attractive path for malicious attacks that expose organizations to new, continuously evolving threats. With a team of experienced leaders and innovators, L7 Defense revolutionizes the way organizations protect their APIs using its advanced AI-based technology.

Ammune™, L7 Defense's platform technology, received 2020 a Product Leadership Award by Frost & Sullivan for protecting APIs thanks to its novel unsupervised learning AI approach to protecting APIs.

---

## IoT

Our mission is addressing CISOs/CIOs roadblocks to better manage cybersecurity.

Orchestra Group is promoting the following solutions:

- Harmony IoT a unique solution that provides an airspace dome around the organization to monitor, detect threats and mitigate cyberattacks through the attack surface of WiFi and Bluetooth protocols.
- Harmony Purple a next-generation Automated Purple team tool that continuously showcases validated, global, multi-vector, Attack Path Scenarios™ (APS) and creates risk modeling-based prioritization.

# Radiflow

[www.radiflow.com](http://www.radiflow.com)

---

## OT and Industrial | Control System

Radiflow provides risk assessment and management solutions for critical industries

Radiflow is an OT Cyber Security company that develops unique tools to secure digital assets for the long term. The company works directly with Managed Security Service Providers to oversee the discovery and management of all relevant data security points. Founded in 2009, Radiflow has offices and partners in Europe, USA and APAC. Its' field-proven solutions are installed in over 6000 sites around the globe. to protecting APIs.

# SIGA

OT Solutions

[www.sigasec.com](http://www.sigasec.com)

---

## OT and Industrial | Control System

Securing the integrity of critical OT processes by delivering AI enhanced monitoring and in-depth operational perception

SIGA OT Solutions is an operational technology (OT) solutions company, whose main mission is to enable industrial, commercial, and critical infrastructure operators to dramatically improve the reliability, safety, and OT cyber security of their assets. SIGA's solution acts as the first line of misbehavior or anomaly detection, ensuring continued operational optimization, operational resilience and prevention of disastrous outcomes at all times .

## IoT & IIoT | Secure Connectivity

### Terafence turns network' cybersecurity connectivity into business enabler.

Terafence manufactures based-hardware cyber security solutions for LAN IoT and IIoT devices. Terafence's FPGA Air-Gap technology DFC (Data Flow Controller) isolates networked devices from Cyber Attacks. Terafence DFC is a pure hardware solution with no CPU/OS or IP/MAC address, thus totally impervious to breaching attempts. Terafence solutions enables industrialists to adopt Industry 4.0 by securely converging OT-IT networks. Only designated data flows through, our DFC maintains total isolation of OT network. Total security via Air-Gap.

## GRC & Vulnerability | Management

### Rebuild The Vulnerability Remediation Market For Today's Remote, Cloud-Based World

Vicarius develops an autonomous vulnerability remediation platform helping teams protect their assets against software exploitation. The platform, called Topia, allows organizations to identify known and unknown vulnerabilities in realtime, prioritize them automatically based on business context and threat factors, and remediate them automatically using world-class patch management, patchless protection and configuration management.
