

GOLDSTAR

Israel's no. 1 beer

For decades, Goldstar has been the best-selling beer in Israel. More than 65 million bottles and cans are sold every year in our local market and worldwide.

The reason for our success is simple: we never compromise on flavor.

Premium amber lager

Goldstar is an original amber lager brewed from a blend of pale and roasted malts that creates a deep, complex, malty flavor. European noble hops inspire the perfect balance between malty sweetness and hoppy bitterness. Goldstar's unique flavor has not changed since it was first brewed in 1950.

Ingredients: water, barley malt, hops.

Goldstar Unfiltered

is a cloudy dark lager produced without filtration to retain maximum flavor in every drop, giving the beer a thicker, creamier head and distinctively full body.

Goldstar SlowBrew

undergoes an especially long fermentation process to extract the very best from the malt and hops, creating a unique beer with exceptional depth, balance, and a powerful presence.

All Goldstar beers are Kosher
