

Maccabee

The Pride of Israel

Maccabee is a beer that has become the pride of Israel. In 2009, with the help of industry leader Heineken International, Maccabee Beer underwent a complete face-lift. Tel Aviv hipsters quickly embraced the new design and attitude, and Maccabee was crowned their official "alternative beer".

Transforming the Maccabee image doubled sales in the bars and pubs segment every year since 2009. Today Maccabee is the second best-selling Israeli beer brand in Israel.

Israel's most exported beer

Israel's most famous and most exported beer: brewed since 1968 and the recipient of four gold medals in prestigious international competitions. Maccabee is a sublime, Pils-style lager made from 100% European malt and lightly spiced with noble European hops. Maccabee has a clear blonde color, gentle dry aroma and a clean, crisp flavor.

Ingredients: Water, barley malt, hops.
