Betterair®'s patented micro-burst technology releases Enviro-Biotics® (environmental probiotics) into the air to naturally purify the air in your home. Enviro-Biotics® support healthy immune function, are chemical free, 100% natural and are certified safe for people and pets.

Why Choose Betterair®?

The World's Only Probiotic System That
Cleans the Air, Surfaces & Objects Naturally

- ✓ creates a hypo-allergenic clean zone
- ✓ virtually maintenance free – fully automated, operates 24/7
- ✓ purifying solutions available for any size space
- ✓ penetrates impossible to reach surfaces that air filters can't
- ✓ rebalances indoor biome to foster a healthier immune system
- ✓ organic probiotics – no harsh chemicals or additives whatsoever
- ✓ extends the life of HVAC systems & filters

Traditional systems simply filter your air. Betterair® goes further to treat your entire home environment, purifying air, surfaces and objects to reduce inanimate allergens at the source. We make it simple to protect everything you care about. Our patented microburst misting technology works on a microscopic level and repetitively releases billions of micron sized probiotics to clean the air and clean surfaces and objects.

We offer Various Probiotic Purifiers:
Hand Held Sprays
Mobile Units for Vehicles & Small Spaces
Versatile, Scalable Residential Units
We also offer Commercial & Industrial Solutions!
