**• Suitable for cats and small dogs • High quality, super-comfortable padding • Non-allergenic, non-irritant • Neutralizes odors • Combats ticks and fleas • Promotes calmer, cleaner sleep • Easily washable • Helps reduce shedding**

### **ONYX Antibacterial Silver Ion Pet Bed**

*The unique ONYX Antibacterial Silver Ion Pet Bed provides furry friends with an innovative clean and comfortable sleep environment that promotes a glossy, healthy coat around the clock.*

**Protect your pet from bacteria, fungi, and parasites with smart bedding that actively combats microbes, for superb hygiene and freshness as well as a happier, better rested pet...**

ONYX introduces the natural secret to sharing outstanding beauty sleep with your four-legged friends, ensuring lasting freshness and freedom from irritation!

Enriched with **silver ion technology**, this **100% elite cotton super-comfy padded bed** not only gives your dog or cat the perfect cozy spot for a nap, but also imparts impressive antibacterial benefits.

ONYX draws on ancient wisdom and natural resources in its quest to develop the most effective smart textiles for health and wellbeing, extracting remarkable secrets straight from the earth itself.

Minerals like silver have benefited humanity – and our pets – for thousands of years due to their therapeutic antiseptic properties. Now it's easier than ever to treat your pet to a sleep experience that can make a huge difference to their daily quality of life.

Thanks to the “natural antibiotics” of silver ions, the bed itself protects pets from harmful microorganisms, neutralizing odors and bacteria while supporting a healthy, shining coat. This is especially beneficial for pets with allergies, but

all pets will love the cleaner, fresher feel, and freedom from irritation.

**With regular use, the ONYX Antibacterial Silver Ion Pet Bed promotes:**

- Calmer skin
- Brighter, glossier coat
- Stronger hair roots
- Improved hair growth
- Protection from ticks, fleas, and infections
- Better, cleaner sleep thanks to silver's antibacterial properties

Silver ions are known to improve sleep quality, creating a cleaner sleep environment free from harmful microbes and parasites through their natural antibacterial power.

ONYX customers worldwide have already reported dramatic improvements in sleep quality and overall wellbeing, as well as enhanced skin smoothness, radiance, and appearance. Now you can give your beloved pet the same deluxe care, with state-of-the-art wellbeing technology that comes straight from Mother Earth.

**100% elite cotton ♦ infused with silver ions**

Machine wash cold (40°C), gentle cycle, no softener, lay flat to dry | Certified under OEKO-tex standard 100 | This product is not intended to diagnose, treat, cure, or prevent any disease and is not intended to replace medical treatment.
