Human Wounds and Its Burden

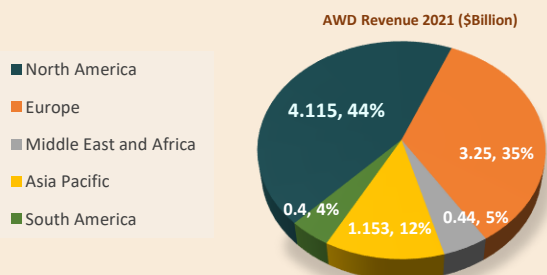

THE NEED

The wound care market seeks products that work better, faster & more reliable:

1. Wound dressing protected from microbial contamination, destroys bacteria, even those resistant to antibiotics.
2. Effects on the tissue itself, facilitating autolytic debridement.
3. Adjusts the moisture level of the wound bed.
4. Controls the bacterial load.
5. Versatile and cost-effective.

THE MARKET: AWD REVENUE 2021 IN \$B

The global Advanced Wound Dressing (AWD) market was valued at **USD 9.352 Billion** in 2021. This number will increase at a CAGR of 5.5% between 2023-2032 (>14B\$).

OUR SOLUTION

SilverStream® Solution and Gel are highly effective, unique, patented, simple, safe and versatile, cover all stages of the wound healing process for Pressure Ulcers, Stasis Ulcers, Diabetic Foot Ulcers, Post-surgical Wounds, Burns, Cuts Abrasions and Minor Skin Irritations and meet all market needs.

COMPETITIVE ADVANTAGES

- Single Product Multiple Action
- Single Product Multiple Types of Wound
- Single Product Covers All Stages of the Wound Treatment & Healing Process
- Over Quarter Million patients treated worldwide without a single report of any adverse effect
- Does not harm healthy tissue/bone/cartilage
- Faster healing reduces hospital stays & hospital/physician visits
- Ready for use, simple application, suitable for personal home use

COMPANY HIGHLIGHTS

- Focused on billion-dollar Rx and OTC wound care, human and veterinarian health markets
- Commercially active in 15 countries worldwide
- Over 20 years of experience; Over \$20M invested in R&D and Regulation
- Robust international partner's network
- Focused on expanding U.S. Partner's network
- Strong manufacturing capabilities

Unique, patented and FDA-cleared, 21 counties MoH and ISO approved SilverStream® Technology

- SilverStream® is known to be among the safest and most effective ways to relieve pain, odor, inflammation, and burns while stimulating natural healing through increased moisturizing, eliminating persistent microorganisms and biofilms, stimulate the growth of granulation tissue
- Proven antipruritic, antimicrobial and anti-inflammatory properties

KEY OPPORTUNITIES

- Continuous R&D efforts explore new product applications
- Expand IFU: prevention of SSI and the dental market
- CE for SilverStream® products
- Expand RX & OTC reach in U.S. in the wound care markets
- Robust product pipeline; expand online and offline sales globally
