

WE DESIGN
WITH YOUR PET
IN MIND

Our story

Palram Pets is part of the Palram Group.

As a world-leading manufacturer, Palram has produced products for sheltering animals for over 50 years.

Our story began in 1963 when Palram was established by a communal society called Kibbutz Ramat Yohanan. It was clear to the funders that they were going to try and solve their fellow farmer's challenges by producing unique plastic sheets for agricultural uses.

Since then, we have gone a long way and become one of the biggest thermoplastic sheet producers in the world, with a worldwide physical and digital presence.

Our customer's portfolio includes well-known retail brands like Home Depot, Costco, Walmart, Bunnings, etc.

About 20 years ago, Palram decided to launch its finished products division. We took our vast knowledge of building commercial greenhouses to the advantage of the home grower and established well-known hobby greenhouses and DIY garden structures brand.

Then, In 2019 we decided to combine our experience and love for pets to benefit pet parents. Thinking of their needs and comfort motivates us to create unique out-of-the-box products that will stand the test of time, so we gathered some talented product designers, production experts, and our strong R&D team, and we hit the road!

We bring an agile approach, flexibility, and our group's massive infrastructure.
