

A GLIMPSE INTO ISRAEL'S EXPERIENCE IN MASS CASUALTY MANAGEMENT

VIRTUAL EVENT

Monday 31st March 2025
12:00 GMT / 13:00 CET / 14:00 IST

IS YOUR ORGANIZATION PREPARED FOR THE UNTHINKABLE?

Terror attacks. Natural disasters. War. Pandemics.

Healthcare systems worldwide are being tested like never before. When seconds count, preparedness saves lives.

This exclusive webinar brings together leading experts from Israel's top hospitals and emergency response units to share real-world strategies for handling mass casualty events (MCEs), strengthening hospital resilience, and responding effectively in crisis situations.

WHO SHOULD ATTEND?

Hospital & Healthcare Leaders CEOs,
Medical Directors, Emergency Managers

Emergency & Trauma Teams
Physicians, Nurses, Paramedics

Government & Public Health Officials
Disaster Response, National Security,
Policy Makers

Emergency Services (EMS)

WHAT YOU'LL LEARN

October 7th Insights – How Israeli hospitals managed the largest terror-related mass casualty event in history.

Hospital Readiness – Key strategies to prepare for large-scale emergencies and maintain operations.

Crisis Response – Effective coordination between first responders, hospitals, and emergency agencies.

Lessons from the Field – Proven approaches to mass casualty management from decades of experience.

Future Preparedness – How the EMPC program trains leaders in emergency response and crisis management.
